

Help Yourself!

 on the Census Bureau's **Home Page** and get to know us!

We offer everything from data highlights for instant gratification to large data files for in-depth research.

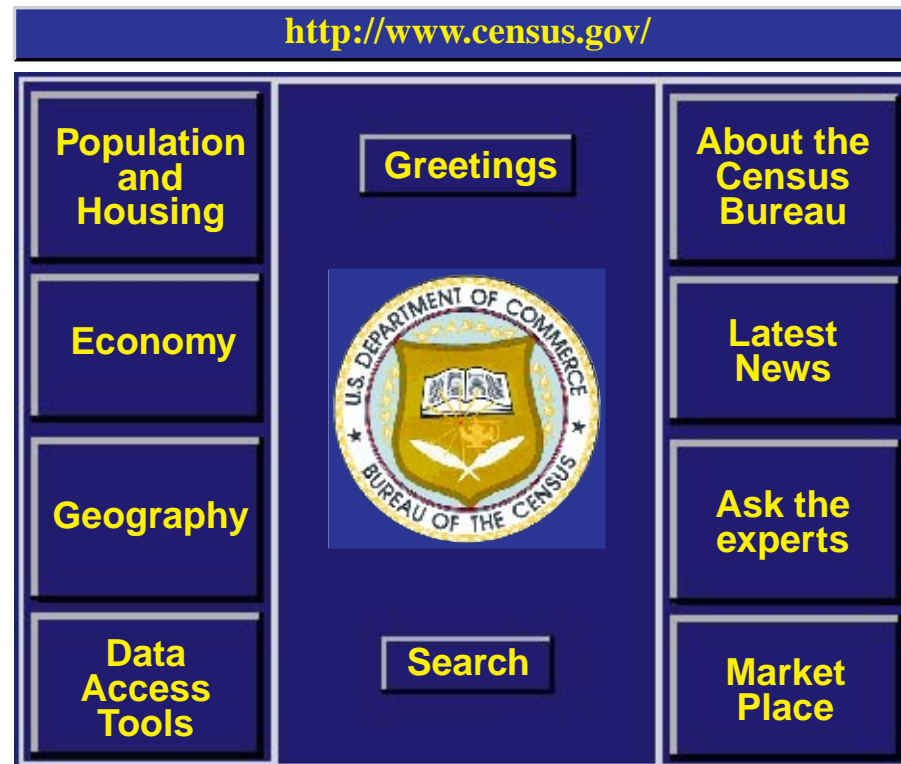

Find out our Nation's estimated population (at the time you ask) or how your local government spends its money or check out a TIGER digital map file. We even have tips on genealogy! *Sorry—no access to current or historical census questionnaires.*

 on **Population and Housing** and find statistics on:

-  Race
-  Migration
-  Housing
-  Income and poverty
-  Labor force

For a quick look at hot topics summarized from censuses and surveys, check out the Statistical Briefs. You'll find 2-4 page reports with titles like "Who's Minding the Kids?," "Dollars for Scholars," and "Housing of the Elderly."

 on **Market Place** and find out about (and purchase!) Census Bureau data products. From CD-ROM's to publications to tapes and fax service. It's a one-stop information shopping mall.

from the Census Bureau's Home Page

 on **Economy** and choose from: Highlights from key economic indicators like:

Housing starts
Monthly retail sales
Monthly wholesale trade
International trade

Current business and industry information:

Current Industrial Reports,
Manufacturers' Shipments,
Inventories, and Orders
Communication services survey
Service annual survey
State and local government finances
Income and poverty data
Agriculture data
Construction-related censuses and surveys

 on **Data Access Tools** and view State and county profiles using DataMap; create your own extract files from the 1990 summaries with 1990 Census Lookup or from the Survey of Income and Program Participation and Current Population Survey using the Data Extraction System; or check out the nearly 300 compact discs available online.

 on **Ask the Experts** and: Contact subject matter specialists directly by viewing the "Who's Who" listing. Refer to their e-mail addresses for population, housing, and economic statistics; and information on educational materials and the decennial census.

Use our mail servers to receive press releases and other mailings. Refer to lists of our Regional Offices, State Data Centers, and Federal Depository Libraries. Join news groups and online discussions. Search the entire data base for a specific item.

 on **Geography** and find out everything you always wanted to know about TIGER. Try out the experimental TIGER digital mapping system and view a map. Download a sample TIGER/Line® or LandView II file. Browse through the technical documentation.
